Dear James,

Thank you very much for your letter regarding male circumcision. It is because of constituents such as yourself that I am able to keep in touch with the voting public and understand what issues are truly important to them.

I understand your concern about male circumcision. Unfortunately, because the timeline for submitting new legislation expires today, it will not be possible for me to submit this legislation this session. However, in the future I will consider developing legislation that will outlaw male circumcision.

Thank you again for your letter, if you have any other questions please feel free to contact me.

Del. Don Dwyer
Anne Arundel County
District 31
